## How to change pet dank memer

Purchase or interact with your own virtual pet! Some pets have better stats than others, which are reflected by their prices. Pets can do many things, such as hunt for items, protect your money from robbers, and even kill robbers. Players can feed, wash, and play with pets to increase its hunger, hygiene and fun respectively. Patting or hugging a pet boosts its love stat. Commands[] pls pet feed pls pet wash pls pet pat pls pet hug pls pet disown pls pet train Stats[] Each pet has hunger, hygiene, fun, energy, love, and experience meters. Hunger, hygiene, and fun can be increased by running pls pet feed, pls pet wash, and pls pet play respectively. Running pls pet feed once increases your pet's hunger bar by 33%, and your pet's love bar by 10%. This costs 10-500 coins, depending on what pet you own. Running pls pet wash once increases your pet's hygiene bar by 33%, and your pet's love bar by 10%. This costs 40 coins, regardless of what pet you own. Running pls pet play once presents you a minigame, similar to pls work. The minigame can be typing words backwards, unscrambling words, playing football, etc. This will cost you anywhere from 1-100 coins. Running pls pet pat or pls pet hug once can boost the pet's love bar. This does not cost any coins. Pets will gain a random amount of experience when interacted (being fed, washed, etc.), or anytime they find an item or prevent a robbery. After gaining 100 experience, your pet will level up, providing you one training point that you can spend to train your pet on a certain trait. Training[] The player can see your pet's training statistics by running pls pet train. Use pls pet train [stat name] to train your pet in that area, and use pls pet train info to learn more about a specific trait. Training Traits Name Description Attack Attack raises the effectiveness of your pet's attacks. When assigned 8 points or more, your pet will be able to kill people. Defense Used to defend against potential robbers of your pocket. The higher this stat is, the more likely it is that your pet will catch stealers and send them to hospital. Hunting Occasionally, your pet may walk around, find an item and bring it back to you. Raising this stat makes this more likely, and increases the rarity of found items. Sustainability Increasing this stat will improve your pets ability to self-sustain itself without you needing to constantly feed or wash it. Attack[] The player's pet would be able to attack users. The higher the stat, the more effect it does to the victim. When the pet is assigned 8 points or more, it would be able to kill people. This ability stops the robbery and weakens, or even kills the robber, when the robber has been killed. Modulus rules. Defend[] The higher this stat is, the more likely your pet will be able to defend your wallet from robbers. Unlike the attack stat, which stops the robbery and kills/weakens the robber, the defense stat stops the robbery and sends the robber to the hospital, where they will have to pay Hospital fees. Hunting[] Training your pet in this area will increase the types and amounts of items that your pet can find randomly. With 0 points assigned to Hunting, pets can find up to around 1,000 coins and items worth around 1,000 coins. At 10 points, pets are able to find up to around 5,000 coins, and items worth up to 20,000 coins. For pets to be able to find items, their love bar needs to be above 20%, and its hunger and fun bars need to be above 50%. Pets normally find coins and items after running a pet-related command. Pets can find items for you 1-3 times in approximately 3-5 days. Sustainability[] Sustainability enhances your pet's ability to self-sustain itself. This ability slows the drainage of your pet's statistics. Without the user feeding, washing, or playing with the pet for a few hours or a day, it would not be able to survive. Pet List[] The player can view pets and their respective prices by running pls pet list. Quests[] Quests give you rare pets (only the dragon and kraken so far). Dragon[] Previously, the Dragon Quest was removed from Dank Memer. However, in the March 2021 update, the quest got added back, then removed again in the July 2021 update. Requirements: 100 work hours 30 day daily streak 500,000 coins in Wallet 1 rare pepe in inventory Dragon item from pls hunt No pet owned 500+ fish in inventory Kraken[] The Quest of the Kraken was added on July 31st 2021 update. Requirements 200 work hours 60 day daily streak 5,000,000 coins in wallet 1,000,000 coins spent Lifesaver in inventory Prestige II Can't own a pet (maybe) 500 legendary fish and at least level 100 Easter Eggs and Multipliers[] If you own a pet that is level 30+, you will receive a 5% multiplier.
